Dear Sandee:

My brother and I are forever grateful for you & Jack and the team at IRS Help Inc. When our dad unexpectedly passed away, the team at IRS Help surrounded us with tremendous support. You assisted us in closing Dad's business and protected our Mom's finances so she was able to stay in her home that she loved so much.

The IRS Help team are experts in their craft. But, what sets you above the rest is that you treated us like family. Every step in the process was clearly explained and we always felt you had Mom's best interests at heart.

***Forever Grateful,
Michelle Bates***

Dear Sandee:

I experienced many sleepless nights after an unfortunate chain of events threatened the future of my business. I would lay in bed and just keep thinking that I was going to lose everything I had worked for over the years. I felt hopeless and alone.

As a last ditch effort I searched the internet for help, and came across IRS Help. I scheduled an appointment and sat down with Jack and Sandee. After hearing my issues, they went to work on solutions. These people came up with legal and ethical solutions that protected me and prevented me from losing everything I own. The ideas they came up with were not common-sense ideas that I would have eventually come up with on my own. These are clever ideas that people who used to work for the IRS would know how to employ.

The people at IRS Help are good, honest people that actually looked out for my best interest. Their plan gave me hope, and put me into a position to rebuild and thrive again. These people let me sleep at night again.

I have stayed in touch with them over the years and it has been nothing but a positive experience. Sandee was the first person to tell me about the Employee Retention Credit, and she successfully completed the application for me.

These are good people to have on your side!

Mark

I'm not one to write reviews, however after coming across a company, IRS Help, Inc. which helped my family out tremendously, I have to let other people know there is help out there if you should get yourself in a sticky situation!

My poor Dad was afraid of losing his house due to circumstances beyond his control. After one meeting with IRS Help all fears were assuaged. My Dad, my brothers & I met with Jack and Sandee and they discussed strategies that would never have been thought of on our own. They helped guide us on the right course to resolve my Dad's issue. and put him at ease.

I am eternally grateful for all Jack and Sandee have done for us!

Best Regards,
Karen Pepe

Dear Sandee

It is with the utmost gratitude that I am writing this letter of thanks for all the years and countless hours that you have spent on my case.

I have been battling this tax issue with the Internal Revenue Service for about 25 years. I would always run into a roadblock and it just seemed as if the nightmare I was living was never going to end.

I was taken advantage by a few people who said they could help and just took my money, with no results and I was in the same place as before I went to them.

One day, my retiring tax attorney introduced me to your company, and he assured me I would be safe. Soon after we met, you reassured me that we would get through this. Though skeptical

The companies doors never were padlocked, the accounts never levied, threatening letters ceased.

They say God sends angels to watch over you and I must say he did that in you and IRS HELP Inc. I am not sure if I ever thought this IRS debt would ever clear up, but I knew you were handling it so I was okay.

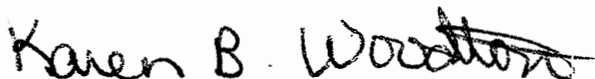

Then in Nov. 2015 when you let me know it was over, I just stared at the email in disbelief. It was really over. I thought if I had only known about your company sooner. You did what you said you would do; just trust you.

I will be forever grateful and indebted to you for all you have done for me seeing this through to the end. I never had to call and ask what was happening ever. You always called me and kept me up to date.

There are many companies out there who take advantage of people that are in a desperate situation and just do nothing for them, but I will tell anyone if you need help with the IRS, I have the perfect people for you.

YES, there is someone out here that will stand up to the IRS; and that is IRS HELP Inc.

Sincerely,

A handwritten signature in black ink that reads "Karen B. Woodton". The signature is written in a cursive style with a horizontal line underlining the name.
